Linda,

Ed Waitr showed up to Sat. and asked to see the biils, to review the bills before they were paid. He then took to bills in to the commuity room and copied them in the his computer recording the amount, PO, amount ect., of each bill. He was not aware that he was on camera and being videoed. When he finished returned the bill and did not saying any thing. The left a copy of the spreadsheet of at least part of it, in the copier. He never said anything about copying them into his computer nor did he ask permission.
