It has now been confirmed that a signed, sworn affidavit was delivered to the U.S. Congress yesterday by individuals acting with an Italian defense company employee in which the employee confesses to manipulating votes in the U.S. election on Nov. 3.

The revelation was made by Maria Zack, Chairwoman of [NationsInAction.org](https://NationsInAction.org), a government accountability advocacy group in an interview with Debbie Georgatos from [AmericaCanWeTalk.com](https://AmericaCanWeTalk.com) posted yesterday.

“D’Elia has been deposed by the presiding judge in Naples and in sworn testimony states on 4 November 2020, under instruction and direction of US persons working from the US Embassy in Rome, undertook the operation to switch data from the US election of 3 November 2020 from significant margin of victory for Donald Trump to Joe Biden in a number of states where Joe Biden was losing the vote totals,” the affidavit signed by employee Arturo D’elio reads.

“Defendant stated he was working in the Pescara facility of Leonardo SpA and utilized military grade cyber warfare encryption capabilities to transmit switched votes via military satellite of Fucino Tower to Frankfurt Germany,” it continues.

“The defendant swears that the data in some cases may have been switched to represent more than total voters registered. The defendant has stated he is willing to testify to all individuals and entities involved in the switching of votes from Donald Trump to Joe Biden when he shall be in total protection for himself and his family. Defendant states he has secured in an undisclosed location the backup of the original data and data switched upon instruction to provide evidence at court in this matter.”

The fact that the affidavit was delivered yesterday afternoon before Congress voted on accepting Electoral College votes for an election accused of being fraudulent makes yesterday’s votes by members of Congress all the more remarkable.

The affidavit was delivered "to those it may concern" around 1:30 yesterday.  
They KNEW the gig was up and continued anyway.

Previous attempts to reach the U.S. State Department and U.S. Embassy Rome for comment on these allegations have so far gone unanswered.

# Global defense contractor IT expert testifies in Italian court he and others switched votes in the U.S. presidential race

Rome, Italy (January 5, 2021) – An employee of the 8th largest global defense contractor, Leonardo SpA, provided a shocking deposition detailing his role in the most elaborate criminal act affecting a US election. Corroborating the DNI Ratcliff’s report of international intrusion, Arturo D’elio outlined the scheme that proved successful in using Leonardo computer systems and military satellites located in Pescara, Italy. Recent reports of a hack at Leonardo now appear to have been an orchestrated cover to mitigate blowback on the corporation which is partially owned by the Italian government.

Nations In Action, a government transparency organization, partnered with the Institute of Good Governance to thoroughly investigate and research the election irregularities which yielded the long-awaited proof that a flawless plot to take down America was executed with extraordinary resources and global involvement. Americans and elected officials now have proof that the election was indeed stolen. This provides the mechanism for each state to recall their slate of electors immediately or face lawsuits and request all federal government agencies to lock down all internal communications, equipment and documentation from the Rome Embassy. “Make no mistake, this is a coup d’etat that we will stop in the name of justice and free and fair elections,” stated Maria Strollo Zack, Chairman of Nations in Action.

The Institute for Good Governance issued the following statement:

---

Our mission is to provide the full truth, expose the perpetrators of this horrific crime, and ensure that every person involved, regardless of position, be prosecuted to the fullest extent of the law. Nations In Action and the Institute for Good Governance are making the following demands on elected officials:

- Depose State Department officials starting with Rome staff including Stefan Serafini
- Immediately strip Leonardo SpA of all contracts and seize assets
- All congressional members must speak out against this foreign and domestic interference or face recalls and suspicion of involvement
- Implement the most severe penalties for participants who had knowledge or participated and refuse to assist in the investigation

Maria Strollo Zack, founder of Nations In Action added, “States must prosecute all illegal voting activities and provide immediate legislative remedies. There can only be zero tolerance for criminal interference in American elections. This international conspiracy must be met with swift action by the President and be fully supported by elected officials for the protection of voting integrity and the prosperity of our great nation.”
