Jim,
This thing is going down tonight. Where are we on the launch? We are going rule 9 right after the debate and we don't have time to fuck around. I've made calls, rats are bailing.

Guys, my SCOTUS notes say "9 Scalias" literally. That's it. What do you want it to say? What graphic do you want? that's all you gave us.

This is place-holder stuff folks. It's just a work domain. We will migrate to real hosting and add flash and donation framework and security. This is just phase 1. Give me other stuff and we will rapidly integrate.

ohn,

we're working on the site. Okay? this was all last minute. In order to have a prayer of keeping Trump's voters we need to promise them 100% Trump just without Trump. We discussed: we can sweep up the elephant's cage later.

We go full Trump on launch. Clear Rule 9. Win the election. Then we can throw them a bone. Some high profile deportations or some shit.

Chase, get some intelligent copy in there. I'll contact you on phone.

Fischer wet her pants, she's back on TT. Stand down. We're going with plan B.

Is this Deb Fischer?

an American politician serving as the senior United States Senator from

Nebraska since 2013. Prior to that, she served two terms in the Nebraska Legislature, representing a rural district in the Sandhills. She is a member of the Republican Party.

I don't think ryan meant to copy me on that last email. I'm worried "Take care of" doesn't mean •pay•. I'm going away until the end of the election.

Please, please get the word out. You can use this email chain. I have moved the site to a back-up domain for evidence.

This from American Digital News from
2017

As the election nominee process evolved on the Republican side, the RINOs and

NeverTrumpers were apoplectic at the thought Trump might actually win the nomination and with General Flynn as a VP they knew their days would be numbered in single digits. Then how did Trump end up with Mike Pence, a Globalist, as his running mate?

If you think Pence is loyal to Trump you probably don't even know about the Cleveland Deal made just before the Republican National Convention.

Oathkeeper NavyJack [@USNJack](#) shares, "There are a LOT of NEO-CONs in the cabinet (Pompeo, Coats, Haley, Perry, Cohn, Preibus, etc.). All of them came with the Pence/Cleveland Deal. Paul Ryan was about to change the rules to allow delegates to vote however they wanted on the first ballot. Trump would not have been nominated."

So how could Ryan alone change it? The rules had to be voted on by delegates. NavyJack shares, "And they would have voted for it had Ryan allowed it to come to a vote. He did not because of the deal."

Did the Cleveland Deal include Pence/Ryan picking Trump's cabinet for first year?

So, Trump picks Pence in July and by October the Globalist (DEMs, RINOs, NeverTrumpers, etc) are in a panic. Trump is gaining ground on the Globalist pick – Hillary Clinton. Time is running out and their options are limited. So Pence and Ryan continue to connive:

Pence and Ryan were not on the Republican ballot at all so you must be wondering why they would be discussing hijacking a national presidential election.

It might be because they already knew some of their past sins were well known and discussed by the Trump Election team. By this time, they were already aware Hillary's lead was slipping dramatically and most Bernie Sanders fans were not about to vote for Hillary.

What options did they have to sway voters and insure the globalist plan continued to move forward as many of their financial backers insisted?

So, Chase got busy after securing the guys under a non-disclosure to make a purse out of pig's ears, well, a Pence-Ryan 2016 website from a napkin.

So in August of 2017 when the American Digital News article was written, it was put forth. . . You decide if they are real.

What do you think of Paul Ryan's actions you have seen? What about Pence and his connection with Pam Bondi of Florida?
